

Skinner: R. Brown - Hitchcock

8-31-78

1. Rich Brown - HAS OILS - Now - Just got
Contract for FARNIR Solubilized Oils (Vinegar??)

- (a). Separates water after processing = 20 PPM oil & grease
- (b). Getting .085-.09 from FARNIR

(c). Took samples back to Clegg

- (a). Noted Concentration of Solids Layer Between
OIL & WATER on Samples (Floculants??)

(3). To continue this process.

- (4). Will use small, thin beds - without large flocs
on bottoms

(5). Still thinks it's oil but high percentage of
WATER

- (6). Will not pay us for oil.

(7). To TAKE our Sol. oil away = .085-.09/lb oil. IF we
Delivered to His Plant = .06-.07/lb oil.

- (8). Will only PAY for pure, FREE oil.

(9). His STATE Dept REQUIRES for Processing WASTE OIL.

→ (11). 2:30 P.M. Phone: Burns Oil.

- (a). Tomorrow - want to pull 8000 Gals. for
Processing. Coster feeds 5000 gals.

- (b). Solids = 10-15% on acid/Oil side.

- (c). Cook all

- (d). 9:00 A.M. / FR. - To pull load.
